HEALTHCARE OPERATIONS EXECUTIVE

Chief Operating Officer · Chief Compliance Officer · Builder of Care Organizations

EXECUTIVE PROFILE

I build the operating infrastructure that lets healthcare organizations grow without losing quality, compliance or patient access.

Hands-on healthcare COO with 20+ years of increasing scope. I currently run day-to-day operations for a **10-facility behavioral health organization at approximately \$24M annualized revenue**, which I helped scale from roughly \$500K, and I built a **geriatric in-residence medical practice from zero** as its COO and Chief Compliance Officer.

My work sits where growth plans become real operations: licensing, credentialing, payer readiness, billing, staffing, EHR, intake, facilities, vendors and the KPI cadence that keeps it all honest. Before healthcare, I led 1,000+ employee multi-state operations in solar construction and ran a three-shift Fortune 500 bottling plant, so I bring plant-floor discipline to clinical settings.
