EXECUTIVE PROFILE

I turn growth plans into working operations: the people, systems, controls and cadence that let a company scale.

Hands-on operations executive with 20+ years across **manufacturing, solar construction, retail, technology contracting and multi-site services**. I started on the floor of a Fortune 500 bottling plant and worked up to running it, then built the infrastructure that took a solar construction company from **5 Florida contracts to ~40 concurrent projects** across the Southeast.

As a COO I have held full P&L ownership, scaled a multi-site organization from about **\$500K to \$24M** in annualized revenue across 10 locations, and launched businesses from zero. I connect finance, people, vendors, technology and frontline execution into one operating model, and I stay close enough to the work to see where it's actually breaking.

OPERATING RECORD · EXECUTIVE LEADERSHIP

Full P&L ownership, multi-site scale.

CHIEF OPERATING OFFICER

JAN 2020 – PRESENT

The Wave International · Clearwater, FL · 10-Location Multi-Site Services Organization

Promoted from Director of Human Resources (Sep 2019 – Jan 2020) into full enterprise operating leadership.

- ◆ Own enterprise operations end to end: service delivery, finance and accounting, billing, HR and payroll, marketing, technology, vendors, facilities and compliance.
- ◆ Scaled the business from approximately **\$500K to \$24M annualized revenue** by acquiring and integrating existing sites and launching new ones, reaching **10 locations nationwide**.
- ◆ Built repeatable site-launch playbooks spanning workforce forecasting, recruiting, licensing, systems, vendors, facilities, policies and opening-day execution.
- ◆ Cut operating expenses **15%** through workflow redesign, automation, vendor management and tighter controls; billing and payer process improvements contributed about **20% more revenue**.
- ◆ Established KPI dashboards, financial reviews and a recurring operating cadence that gave leadership real-time visibility into revenue, capacity, staffing and risk.
- ◆ Built and run offshore capacity: a four-person India-based accounting team and an after-hours call center, managed through daily standups and weekly strategy calls.

VICE PRESIDENT, HR & OPERATIONS

SEP 2013 – AUG 2019

SEC Solar · Tampa, FL · Multi-State Solar Construction

- ◆ Built the operating infrastructure that grew the company from about **5 Florida contracts to ~40 concurrent projects** across the Southeast for major utility and power-company customers.
- ◆ Owned mobilization of newly awarded contracts from post-sale handoff through launch: workforce plans, org structure, systems, reporting, vendors and contractors.
- ◆ Directed workforce and capacity planning for a **1,000+ employee** environment, matching hiring and resources to shifting project demand.
- ◆ Built real-time BI on project activity, capacity, productivity and staffing so leaders could spot constraints early.
- ◆ Standardized workflows across markets, cutting project timelines **~25%** and payroll admin costs **~40%**.
- ◆ Helped lead the transition from **NetSuite to Microsoft Dynamics**, from workflow design through user adoption.

PORTFOLIO

What I've built, *and how it turned out.*

SEC SOLAR

Scaling from 5 contracts to ~40 projects

CHALLENGE

Rapid contract wins across multiple states, with ad hoc onboarding and no consistent way to move awarded work into execution.

WHAT I BUILT

A repeatable contract mobilization process with standard workflows, decision rights, workforce plans and reporting that could be copied market to market.

~40 · 25% Concurrent Southeast projects; timelines about 25% faster

01

SYSTEMS & AUTOMATION

Rebuilding the back office for scale

CHALLENGE

Payroll and admin work was growing faster than the business, and leaders lacked real-time visibility across projects and states.

WHAT I BUILT

Workflow redesign, real-time BI and the move from NetSuite to Microsoft Dynamics, including process integration, reporting and user adoption.

~40% Lower payroll-related administrative cost across a 1,000+ person workforce

02

THE WAVE INTERNATIONAL

Scaling a multi-site company 48x

CHALLENGE

A small operator with aggressive growth goals and no operating backbone to support new sites, acquisitions and a larger team.

WHAT I BUILT

Launch playbooks, acquisition integration, KPI dashboards, offshore support teams and an executive operating cadence tied to the P&L.

\$500K → \$24M Annualized revenue across 10 locations, with OpEx down 15%

03

SYNERGY MEDICAL CENTERS

Running retail ops across a 20-site network

CHALLENGE

Twenty new locations had to open on schedule while keeping product stocked and customers served across a spread-out network.

WHAT I BUILT

Site-opening systems plus DTC operations for purchasing, inventory, replenishment, vendors and customer support, backed by location-level performance data.

20 · 15% Locations launched; turnover down 15%; Best Place to Work in Cobb County
